EDUCATION

London School of Economics and Political Science (LSE) <i>BSc in Economics, Predicted First Class Honours</i>	Sep 2025 – Jun 2028 London, UK
Hangzhou Foreign Language School (HFLS) <i>A-levels: 5A*s; TMUA: 9/9 (Top 1%); UK Exchange Year in South Devon College (YFU 2022-2023)</i>	Sep 2022 – May 2025 Hangzhou, China

WORK EXPERIENCE

Zheshang Securities <i>Investment Banking Summer Intern</i>	May 2025 – Aug 2025 Hangzhou, China
<ul style="list-style-type: none">Recognised by MDs and VPs as top-performing intern (1/15) for technical execution and commercial awareness.Evaluated strategic and operational synergies for a c.£800m acquisition of a wet chemicals company against the client's 11 listed portfolio companies to support valuation work and strategic fit assessment.Analysed 150+ private placement cases over 3 years to identify 12 close comparables; proposed a shareholder-subscription structure to balance the client's urgent liquidity needs with longer-term capital structure.Developed a strategic carve-out and A-to-H spin-off proposal for AI and data subsidiaries to the STAR Market, highlighting SOTP valuation upside and mitigation of a £1.7bn goodwill overhang.	
Private Economics Tutoring <i>Founder & Head Tutor</i>	Feb 2024 – Apr 2025 Global
<ul style="list-style-type: none">Founded an international tutoring venture generating £17,000+ revenue across 7 countries through repeat clients and referrals.Advised 30+ students on application strategy, contributing to 15+ top-university offers and 10+ competition awards.	

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

LSE M&A Group <i>Analyst</i>	Oct 2025 – Present London, UK
<ul style="list-style-type: none">Selected through a competitive process (c.5% acceptance rate) for the analyst programme and 12-week technical bootcamp.Built a 3-statement DCF integrating penetration, pricing, margin, and patent-cliff to value Novo Nordisk as the final project.	
Youth For Understanding <i>Orientation Leader</i>	Jun 2024 – Aug 2025 Multiple Cities, China
<ul style="list-style-type: none">Facilitated 3 orientation cycles for 300+ exchange students from 15+ countries.Led 13 volunteers and coordinated 10 host-family and school placements to ensure student well-being.	
HFLS Annual Alumni Football Tournament <i>Organiser</i>	Jul 2024 – Jul 2025 Hangzhou, China
<ul style="list-style-type: none">Led the whole cycle of a 150-participant alumni football tournament, continuing a 12-year tradition.Secured £6,500 in sponsorships by reaching out to entrepreneurial alumni network; halved entry fees to double participation.	

PROJECTS & AWARDS

MBP Capital × Citadel Global Stock Pitch Competition	Feb 2026 – Mar 2026
<ul style="list-style-type: none">Silver Medal (2nd Place) out of 240+ teams with a Short pitch on Upstream Bio (UPB).Engineered a rNPV model driven by a top-down market framework, projecting peak sales 57% below consensus by quantifying aggressive rebate demands and biosimilar price erosion.Utilized the Unified Airway Hypothesis to preemptively forecast mediocre Phase 2 results; deconstructed the '300x potency' claim as a clinically irrelevant metric for asthma outcomes.Quantified a high-conviction 'Lose-Lose' setup offering significant downside optionality; investment thesis realized its 81.8% target downside following a post-submission market crash.	
LSE ACS × Fidelity International Stock Pitch Competition	Oct 2025 – Nov 2025
<ul style="list-style-type: none">Won 1st place (1/20 teams) with a long recommendation on NVO, presenting a contrarian thesis.Developed a three-pillar investment thesis spanning indication-level differentiation, pipeline optionality, and manufacturing-capacity catch-up; translated qualitative catalysts into explicit model drivers.Built a DCF with drug-level forecasts, patent-cliff erosion, and cannibalisation, supported by comps and scenario/sensitivity analysis to map valuation range and key risks.	
Harvard International Economics Essay Competition	Dec 2023 – Jan 2024
<ul style="list-style-type: none">Won (Top 0.1%) with a multi-scenario game-theory model forecasting US–China escalation pathway and impacts.
